

Superbill Guide

Hello,

Welcome to our practice, Lingua! We are looking forward to helping you. At this time, we do not directly communicate with insurance. However, we do provide you with a superbill and this superbill guide to best help.

What is a superbill?

A superbill is a document that healthcare providers use to bill insurance companies for services rendered. It includes information about the service, such as the date of service, type of service, and provider's name.

How do I know if my insurance will accept my superbill?

Contacting your insurance prior to your session with Lingua is important. Sessions typically can be reimbursed by your provider if you have **out of network coverage**.

What information do I need to provide and what questions I need to ask to see if they will reimburse me?

Here is a sample of what to say:

" I am inquiring regarding reimbursement for out-of-network expenses for therapy for NAME/DOB. Do I have out of network coverage? If the provider provides a superbill, will you reimburse me for the expense ?

If they say no, you do not have out of network reimbursement abilities OR they say we can cover it if Lingua becomes in-network with us, then unfortunately, you will not be able to be reimbursed by your insurance.

If they ask for provider information:

Provider: Megan Oswald

Practice: Lingua Speech, Swallow, and Voice Services

Location: Unit 106 457 N Main Street Pittston, PA 186040

Practice Tax ID: 85-2845036

NPI I: 1174060354 **NPI II :**1316552698

Your exact provider may vary, please let the insurance rep know it will be within that NPI II but the NPI I may vary

If they ask about CPT codes, here are the following codes that could be utilized. Please provide them with the code that you think is more accurate of your need.

Potential CPT:

- 1. 92506** (Evaluation of speech) and **92507** (Treatment of speech, language, voice, or communication)
- 2. 92610** (Evaluation of oral and pharyngeal swallowing function) and **92526** (Treatment of swallowing dysfunction)

If they ask about CPT codes, here are the following codes that could be utilized. Please provide them with the code that you think is more accurate of your need.

Potential ICD10:

- 1. F80.0 Specific developmental disorders of speech and language F80. 2 — Mixed receptive expressive language disorder**
- 2. R63.3 - Feeding Difficulties or R13.12 — Dysphagia, oropharyngeal phase, or Q38. 1 - Ankyloglossia (tongue tie)**

Please note if you are receiving services for nutrition, sleep coaching, or oral myofunctional therapy with our registered dental hygienist, a superbill is not available for use.
